"I know of the bravery and character of the Afro-American soldier. He saved my life at Santiago. I have had occasion to say so in many articles and speeches. The Rough Riders were in a bad position when the Ninth and Tenth Cavalry came rushing up the hill, carrying everything before them. The Afro-American soldier has the faculty of coming to the front when he is needed most. In the civil war he came 400,000 strong, and I believe he saved the Union."-President Roosevelt.
